COMMON CORE OF DATA: PUBLIC SCHOOL UNIVERSE DATA, 1978-1979
(ICPSR 2244)

SUMMARY: This dataset contains records for each public elementary and secondary school in the 50 states, the District of Columbia, and outlying areas (American Samoa, Guam, Puerto Rico, the Virgin Islands, and the Marshall Islands) for 1978-1979. Each public elementary and secondary school is identified by the local education agency (LEA) to which it belongs. Data were reported to the National Center for Education Statistics by the state education agencies. Records in this file provide the name and address of the school, name of the school district or other education agency that operates the school, type code for the school, number of full-time equivalent classroom teachers, and the fall enrollment.

UNIVERSE: All public elementary and secondary education agencies in the 50 states, the District of Columbia, and United States territories (American Samoa, Guam, Puerto Rico, the Virgin Islands, and the Marshall Islands).

NOTE: The codebook and data collection instrument are provided as a Portable Document Format (PDF) file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.
